NÖRR

by Interbois

Sleek, contemporary design

Much more than a style, *hygge* is a philosophy imported from Denmark that urges you to slow down and connect with the relaxing ambiance of your home. To honour this art of living, our NÖRR collection focuses on a comforting atmosphere that evokes a sense of happiness in rooms where walls and ceilings are adorned with our decorative panelling.

Add luxury and texture to the spaces you design.
You won't resist adding this harmonious look everywhere!

SHIPLAP-RËN

Walls and ceilings blend with the blonde wood of SHIPLAP-RËN for a mesmerizing effect.

(page 5)

Profiles

CLASSIC VJ-S

Made of planks separated at the center and ends by V joints, this design creates a subtly textured backdrop for both vintage and modern interiors. Use it to soften rooms and make them feel more intimate.

CLASSIC VJ-M

This timeless profile becomes the centerpiece of any living or working space. The addition of CLASSIC VJ-M panelling brings comfort and warmth to your creations in a snap! Both stylish and sophisticated, our interior coverings offer endless possibilities.

SHIPLAP-S

The SHIPLAP: A very popular decorative piece! It adds focus and texture to any room. Set your decor apart with this modern design with vertical-edged centre grooves that offer a close-slat effect.

SHIPLAP-M

Choose SHIPLAP-M, contemporary panelling with timeless straight lines. With its wider planks, dare to use it in kitchens, bathrooms and bedrooms to create accents or cover entire rooms with it. It looks good horizontally as well as vertically.

SHIPLAP-L

The largest of the SHIPLAP designs! Apply it to large surfaces in dining rooms, living rooms and bedrooms for bold and polished interiors. This wall covering creates striking grooves that enhance the beauty of your project.

SHIPLAP-RĒN

Adorn walls and ceilings with this modern design made of birch plywood. Its reversible slats are defined on one side by deep, straight grooves and, on the other, by a micro-strip. An undeniable enveloping effect awaits you!

CRENŌ-S

Evenly spaced slats and grooves give this stylish design a stripe-like illusion. You'll love this wall covering that exudes European sophistication in simplicity for a neutral, yet impactful, effect.

CRENŌ-M

This product's strong lines and play of shading immediately catch the eye. Use it to shape an accent wall—or dare to use it on a kitchen island for a unique decorative touch. A remarkable texture that gives your creations a sense of grandeur!

DŪNE-S

The uniqueness of DŪNE-S is found in its undulating curves and distinct peaks. Imagine a room embellished with this pristine white design to make it classy. Add colour for a modern contrast. Spruce up your decor using light and shadow.

DŪNE-M

DŪNE-M is a popular and elegant scalloped design, characterized by wide, slightly undulating curves. The design is beautiful when applied to an entire wall, and stunning when paired in tandem with DŪNE-S.

DŪNE-XL

DŪNE-XL features bold, defined curves that are five times wider than those of DŪNE-S. This wall covering brings softness and roundness to a large surface, creating an immediate sense of zenitude. You'll want to use more of it in bedrooms, boudoirs and entryways.

SØM

The repetitive lines of this product, consisting of small round rods spaced apart from each other, delicately add texture to the walls. Painted in white, black or whatever colour you like, it becomes the distinctive focal point of the room.

DĀME

Curvier, more enveloping, more comfortable and somewhat retro, DĀME brings softness and warmth to any interior. Choose this trend that can only delight your desire to create a surprising design.

DĀME UNIK

Replace sharp perspectives in a room with rounded corners. No more rigid, square, 90-degree angles. Here, we make your dream of having curved walls come true with the DĀME UNIK. This single-installation rounded batten is the perfect complement to the DĀME profile.

TOPP

Heads will turn when people see your TOPP design! Enhance your projects with this wall covering, which is defined by its steep and regular ascents and descents. Its play on shapes and texture are undeniably astonishing.

VINKA

Here is a breath of fresh air for your designs. This wall covering's unique curves bring both modernity and sensuality for the most sought-after rooms. Add it to living rooms and bedrooms for revamped cozy spaces.

Features and benefits

Contemporary designs

Instantly glam up the spaces you create with our versatile NÖRR wall coverings, which are designed to accent walls, ceilings and interior surfaces. Experiment with curved styles or timeless vertical planks to achieve beautiful texture and depth. All of our profiles have been created to match, allowing multiple designs to be installed on a single surface.

Well-designed panels

Our NÖRR wall coverings are made from medium-density fiberboard (MDF) or wood (oak and maple hardwood and birch plywood), depending on the product selected. Our MDF line is covered with a wood finish or white primer and is paint-ready. Our line of wooden products is natural and can be painted, dyed or varnished as you wish. Both can be installed directly on gypsum walls.

Vertical or horizontal installation

Impact-resistant

Little sanding required

Ready to be painted, varnished or stained

Can be installed in humid environments

Sustainable Canadian manufacturing

All our products are proudly made in Canada. At Interbois, we are committed to sourcing the best wood available that is environmentally friendly and in compliance with building codes.

SHIPLAP-RĒN

SHIPLAP-RĒN's blonde wood matches perfectly with this monochromatic kitchen area, where meals become unbelievably comforting.

Wall coverings at the heart of your projects

Step 1: Inspiration

There is a NÖRR profile by Interbois for every home design. Start your design process by gathering inspiration. Define your desired style, choose your colour palette, and create a unique and inspiring moodboard.

Step 2: Selection

Our NÖRR wall coverings are available in a wide range of designs—from classic to contemporary. They can be installed in a variety of ways: vertically or horizontally, on a full or half wall, at the head of a bed, on a kitchen island or on cabinets. Several panels are available in varying widths. Alternate the width to create stunning effects.

Step 3: Project planning

Carefully plan the design, ordering and installation of NÖRR panels for a hassle-free project. From taking measurements to painting, leave nothing to chance!

Step 4: Installation

This is the day you've been waiting for: the installation of the panels on the walls of the room you've created. We've designed all of our wall coverings to be quickly and easily installed. A link to the product installation guide is available on every package.

Don't hesitate to add accessories to the wall coverings, such as frames, mirrors, lights, shelves and hooks. Let your creativity run wild! The harmony of spaces, lines, shapes, light and textures will make your decorations truly stand out.

SHIPLAP-M and DÜNE-S

Nature sneaks into this room with the MDF SHIPLAP-M juxtaposed against the maple DÜNE-S.
