

DO IT YOURSELF
TEXTURED WALLS

Textured Walls...

A stunning trend to introduce at home

Mouldings offer many advantages that make them ideal for expressing your creativity in various interior design projects. The possibilities are endless when it comes to textured walls created with mouldings.

This brochure will inspire you with several one-of-a-kind ideas that will elevate your room's style and give you the satisfaction of having done the project yourself!

WELCOMING 3D BOXES

Both classic and modern, this wall adorned, with geometric 3D shapes, is perfect for decorating your home's entrance hall or transitional area. Subtle and elegant, it will blend seamlessly with sleek decors, adding character and style.

REQUIRED TOOLS

- Erasable pencil or masking tape
- Caulking gun
- 18 gauge finishing nails
- Finishing nailer
- Measuring tape
- Level
- Miter saw
- Grain filler
- Caulk
- Nail punch

THE MATERIAL YOU NEED

- 1565 moulding
- Thickness: 1-1/16"
- Width: 1-1/16"
- Length: 96"
- Wood species:
Finger-jointed pine,
Select pine,
White primed MDF

You can also use the following mouldings:

- 1550 • 1560

TIPS AND TRICKS

Measure and cut each moulding individually for a perfect fit, as your ceiling and floor may not be perfectly level.

INSTALLATION
GUIDE

COSY BEDROOM

Looking for an unusual idea to add personality to your bedroom decor? This herringbone diamond wall above the bed is sure to create a chic and warm ambiance, making the space gently conducive for rest and relaxation.

REQUIRED TOOLS

- Erasable pencil or masking tape
- Caulking gun
- 18 gauge finishing nails
- Finishing nailer
- Measuring tape
- Level
- Miter saw
- Grain filler
- Carpenter's triangle
- Caulk
- Nail punch

THE MATERIAL YOU NEED

- 1565 moulding
- Thickness: 1-1/16"
- Width: 1-1/16"
- Length: 96"
- Wood species: Finger-jointed pine, Select pine, White primed MDF

You can also use the following mouldings:

- 1550 • 1560

TIPS AND TRICKS

Always cut at the end of the cutting line, not at the bottom or center of it.

INSTALLATION
GUIDE

VARIABLE GEOMETRY

There's no need for an imposing headboard to highlight your cozy place for cocooning! This geometric wood wall perfectly frames the space, giving it both presence and elegance. The angular, asymmetrical patterns form a true work of art that crowns the bed.

REQUIRED TOOLS

- Erasable pencil or masking tape
- Caulking gun
- 18 gauge finishing nails
- Finishing nailer
- Measuring tape
- Level
- Miter saw
- Grain filler
- Carpenter's triangle
- Caulk
- Nail punch

THE MATERIAL YOU NEED

- 1321 moulding
- Thickness: 3/4"
- Width: 1-1/2"
- Length: 96"
- Wood species:
Finger-jointed pine,
White primed MDF

You can also use the following mouldings:

- 1550 • 1560 • 1565

TIPS AND TRICKS

Cover nail holes, cuts and joints with filler.
Let dry and sand to perfection.

INSTALLATION
GUIDE

WELL-DESIGNED BUILT-IN STORAGE

Why settle for a bookcase when you can beautifully cover an entire wall with wood slats? Design a custom wall that is both decorative and functional to transform your bookcase into an accent piece. It's easy to adapt to any room in the house.

REQUIRED TOOLS

- Erasable pencil or masking tape
- Caulking gun
- 18 gauge finishing nails
- Finishing nailer
- Measuring tape
- Level
- Miter saw
- Grain filler
- Carpenter's triangle
- Caulk
- Nail punch

THE MATERIAL YOU NEED

- 1565 moulding
- Thickness: 1-1/16"
- Width: 1-1/16"
- Length: 96"
- Wood species: Finger-jointed pine, Select pine, White primed MDF

You can also use the following mouldings:

- 1550 • 1560

TIPS AND TRICKS

Install finishing nails at an angle. This technique allows you to join elements that fit together at a 90-degree angle. Nails driven at a 45-degree angle are less likely to pull out as the wood swells or shrinks over time.

INSTALLATION
GUIDE

A COCOON IMMERSED IN DESIGN

While a midnight blue accent wall is a definite eye-catcher in any room, a wall lined with the same colour pattern is unmatched, creating a striking effect, especially in a bedroom. This project is easily achievable and will only take you a few hours to complete!

REQUIRED TOOLS

- Erasable pencil or masking tape
- Caulking gun
- 18 gauge finishing nails
- Finishing nailer
- Measuring tape
- Level
- Miter saw
- Grain filler
- Carpenter's triangle
- Caulk
- Nail punch

THE MATERIAL YOU NEED

- 1565 moulding
- Thickness: 1-1/16"
- Width: 1-1/16"
- Length: 96"
- Wood species:
Finger-jointed pine,
Select pine,
White primed MDF

You can also use the following mouldings:

- 1550 • 1560

TIPS AND TRICKS

Use a nail punch to conceal the head of finishing nails and prevent damage to wood surfaces from the hammer. A nail punch is a small cylindrical tool with a pointed or concave end designed to drive a nail below the surface of the wood.

INSTALLATION
GUIDE

TIMELESS TENDERNESS

Rather than opting for a colourful mural or vibrant colours, why not design a geometric wall in your child's room? Painted using a neutral shade, such as olive green, it will last longer and can be adapted to the various changes in decor over the years.

REQUIRED TOOLS

- Erasable pencil or masking tape
- Caulking gun
- 18 gauge finishing nails
- Finishing nailer
- Measuring tape
- Level
- Miter saw
- Grain filler
- Carpenter's triangle
- Caulk
- Nail punch

THE MATERIAL YOU NEED

- 1321 moulding
- Thickness: 3/4"
- Width: 1-1/2"
- Length: 96"
- Wood species:
Finger-jointed pine,
White primed MDF

You can also use the following mouldings:

- 1550 • 1560 • 1565

TIPS AND TRICKS

Make sure you take good measurements.
Don't make any approximations when cutting!

INSTALLATION
GUIDE

DINING ROOM

A chic and tasteful decor, worthy of a 5-star restaurant! With it requiring just a few strokes of the miter saw, hammer and brush... what's not to love! As an added bonus, the rectangular layout of these mouldings, which are longer than they are wide, creates a sense of height.

REQUIRED TOOLS

- Erasable pencil or masking tape
- Caulking gun
- 18 gauge finishing nails
- Finishing nailer
- Measuring tape
- Level
- Miter saw
- Grain filler
- Caulk
- Nail punch

THE MATERIAL YOU NEED

- 1565 moulding
- Thickness: 3/4"
- Width: 1-1/2"
- Length: 96"
- Wood species: Finger-jointed pine, select pine, White primed MDF

You can also use the following mouldings:

- 1550 • 1560 • 1321

TIPS AND TRICKS

Even if you use square or rectangular mouldings, don't neglect the 45-degree angles in the corners of the boxes for an impeccable finish.

INSTALLATION
GUIDE

STYLISH KITCHEN

A kitchen with European accents. These moulding boxes on the wall are reminiscent of the Haussmannian apartments, which are so typically Parisian. Simple to build, they will add that little touch of chic and good taste.

REQUIRED TOOLS

- Erasable pencil or masking tape
- Caulking gun
- 18 gauge finishing nails
- Finishing nailer
- Measuring tape
- Level
- Miter saw
- Grain filler
- Caulk
- Nail punch

THE MATERIAL YOU NEED

- 1925 moulding
- Thickness: 5/8"
- Width: 1-3/4"
- Length: 96"
- Wood species: MDF with white primer

You can also use the following mouldings:

- 1518 3/4" X 1-5/8" X 96"
Select pine, white-primed MDF

TIPS AND TRICKS

Timeless and elegant, this idea is inspired by the refinement of Haussmannian apartments. Choose small decorative mouldings or picture rails with rounded and curved shapes. The result is a soft and enveloping atmosphere.

INSTALLATION GUIDE

RETRO LIVING ROOM REVISITED

Tone on tone in matte and gloss. This wall, reminiscent of the slatted walls of old-style houses, takes on a completely contemporary look thanks to the 3D effect provided by the mouldings and accentuated by the contrast of the paint finishes.

REQUIRED TOOLS

- Erasable pencil or masking tape
- Caulking gun
- 18 gauge finishing nails
- Finishing nailer
- Measuring tape
- Level
- Miter saw
- Grain filler
- Caulk
- Nail punch

THE MATERIAL YOU NEED

- 1565 moulding
- Thickness: 1-1/16"
- Width: 1-1/16"
- Length: 96"
- Wood species:
Finger-jointed pine,
Select pine,
White primed MDF

You can also use the following mouldings:

- 1550 • 1560

TIPS AND TRICKS

Why not try your take on varying the paint finishes that you use? For example, the back wall can be painted with a low-gloss paint, and the accent moldings can be painted with a high gloss finish.

INSTALLATION
GUIDE

STUDIO BEDROOM

A relaxing atmosphere in the bedroom. These natural lines repeated on the wall and painted tone on tone provide a soothing effect in perfect harmony with the materials and natural colours of the entire decor.

REQUIRED TOOLS

- Erasable pencil or masking tape
- Caulking gun
- 18 gauge finishing nails
- Finishing nailer
- Measuring tape
- Level
- Miter saw
- Grain filler
- Caulk
- Nail punch

THE MATERIAL YOU NEED

- 1321 moulding
- Thickness: 3/4"
- Width: 1-1/2"
- Length: 96"
- Wood species:
Finger-jointed pine,
White primed MDF

You can also use the following mouldings:

- 1550 • 1560 • 1565

TIPS AND TRICKS

Are your walls 9 feet high when moldings are usually available in 8-foot lengths? This pattern is perfect! Use the full length without any joints.

INSTALLATION
GUIDE

SOOTHING BATHROOM

Roundness showcased! Add contrast with right-angled accent boxes made with our curvy DÂME wall panelling. They'll add just the right amount of movement to catch the eye and leave you dreaming.

REQUIRED TOOLS

- Erasable pencil or masking tape
- Caulking gun
- 18 gauge finishing nails
- Finishing nailer
- Measuring tape
- Level
- Miter saw
- Grain filler
- Caulk
- Nail punch

THE MATERIAL YOU NEED

- DÄME 8046 wall panels
- Thickness: 3/4"
- Width: 6-11/16"
- Length: 96"
- Wood species: White primed MDF
- Window Sill Moulding 0851
- Thickness: 1"
- Width: 1-1/2"
- Length: 96"
- Wood species: White primed MDF

You can also use the following mouldings:

- 1324 3/4" X 4-1/2" X 96"
Finger-jointed pine, white primed MDF

TIPS AND TRICKS

Choose a high-quality finishing blade. A blade with more teeth (40, or even better, 80) will give you a cleaner cut.

INSTALLATION GUIDE

STRIKING ENTRANCE

A trio of lines. Vertical, horizontal, diagonal... You don't have to choose! This simple addition of lines enhances the chic character of this contemporary-style entrance. Dazzle your guests as soon as they walk in!

REQUIRED TOOLS

- Erasable pencil or masking tape
- Caulking gun
- 18 gauge finishing nails
- Finishing nailer
- Measuring tape
- Level
- Miter saw
- Grain filler
- Caulk
- Nail punch

THE MATERIAL YOU NEED

- 1565 moulding
- Thickness: 1-1/16"
- Width: 1-1/16"
- Length: 96"
- Wood species:
Finger-jointed pine,
Select pine,
White primed MDF

You can also use the following mouldings:

- 1550 • 1560

TIPS AND TRICKS

If switches or electrical outlets exist in your design, frame them beforehand and have your design butt against it. Here is an example:

INSTALLATION
GUIDE

TIMELESS CLASSIC

No more monotony! There is a very simple way to refresh a room's decor and break the monotony of plain walls in no time: the board and batten. A few strokes of a saw and a hammer are all it takes to give your room some personality.

REQUIRED TOOLS

- Erasable pencil or masking tape
- Caulking gun
- 18 gauge finishing nails
- Finishing nailer
- Measuring tape
- Level
- Miter saw
- Grain filler
- Carpenter's triangle
- Caulk
- Nail punch

THE MATERIAL YOU NEED

- 1253 moulding
- Thickness: 5/8"
- Width: 3"
- Length: 96"
- Wood species: MDF with white primer
- 1321 rectangle moulding
- Thickness: 3/4"
- Width: 1-1/2"
- Length: 96"
- Wood species: Finger-jointed pine, White primed MDF

You can also use the following mouldings:

- 1321 • 1322 • 1565 • 5825

TIPS AND TRICKS

Although the top shelf is not necessary, it adds a unique finishing detail when the board and batten do not cover the wall floor-to-ceiling.
