Textured Walls

Textured Walls...

A stunning trend to introduce at home

Mouldings offer many advantages that make them ideal for expressing your creativity in various interior design projects. The possibilities are endless when it comes to textured walls created with mouldings.

This brochure will inspire you with several one-of-a-kind ideas that will elevate your room's style and give you the satisfaction of having done the project yourself!

interbois

Interior finishing. Elevated.

Brand pillars

● Stimulate creativity.

Interbois believes that you can do a lot with very little when using interior finishings. Taken one by one, our products are surprisingly simple. They can be combined or integrated in so many ways—and they make a striking statement in any décor and in any style. And to ensure that everyone benefits from our solutions, we focus our design culture and ingenuity on inspiring and informing the marketplace. Our goal? That the creative spirit of the avant-garde designer or the enthusiastic do-it-yourselfer is transformed to imagine one-of-a-kind living spaces. Truly one-of-a-kind.

● Simplify installation.

Simplified installation is an integral part of the Interbois experience. Regardless of skill or knowledge, installation is never an inconvenience. Everything is readily available for a smooth-running project: technical documentation, accurate information, product accessibility and marketing, and so much more. Consistent quality, intuitive packaging and available online tutorials for a distinctive project that can be easily completed.

● Listening customer needs.

We have always believed in the strength of relationships between team members, partners and customers. From these relationships, nurtured by active listening, emerge both the ingenuity of our solutions and caring in our customer service. Beyond our products, we put people and their needs first. That's how listening makes us true facilitators. Facilitators of creativity, facilitators of projects, facilitators of business. And above all, facilitators of success!

Geometric Casings

Both classic and modern, this wall adorned, with geometric 3D shapes, is perfect for decorating your home's entrance hall or transitional area. Subtle and elegant, it will blend seamlessly with sleek decors, adding character and style.

Required tools

- ▶ Erasable pencil or masking tape
- ▶ Caulking gun
- ▶ 18 gauge finishing nails
- ▶ Finishing nailer
- ▶ Measuring tape
- ▶ Level
- ▶ Miter saw
- ▶ Grain filler
- ▶ Caulk
- ▶ Nail punch

The material you need

- ▶ **1565 moulding**
- ▶ Thickness: 1-1/16"
- ▶ Width: 1-1/16"
- ▶ Length: 8'
- ▶ Species: Finger-jointed pine, select pine, white primed MDF

You can also use the following mouldings: 1550 and 1560

Building tutorials

Learn how to easily recreate this wall!

Tips and tricks

- ▶ Measure and cut each moulding individually for a perfect fit, as your ceiling and floor may not be perfectly level.

Leaf Pattern

Looking for an unusual idea to add personality to your bedroom decor? This herringbone diamond wall above the bed is sure to create a chic and warm ambiance, making the space gently conducive for rest and relaxation.

Required tools

- ▶ Erasable pencil or masking tape
- ▶ Caulking gun
- ▶ 18 gauge finishing nails
- ▶ Finishing nailer
- ▶ Measuring tape
- ▶ Level
- ▶ Miter saw
- ▶ Grain filler
- ▶ Carpenter's triangle
- ▶ Caulk
- ▶ Nail punch

The material you need

- ▶ **1565 moulding**
- ▶ Thickness: 1-1/16"
- ▶ Width: 1-1/16"
- ▶ Length: 8'
- ▶ Species: Finger-jointed pine, select pine, white primed MDF

You can also use the following mouldings: 1550 and 1560

Building tutorials

Learn how to easily recreate this wall!

Tips and tricks

- ▶ Always cut at the end of the cutting line, not at the bottom or center of it.

Required tools

- ▶ Erasable pencil or masking tape
- ▶ Caulking gun
- ▶ 18 gauge finishing nails
- ▶ Finishing nailer
- ▶ Measuring tape
- ▶ Level
- ▶ Miter saw
- ▶ Grain filler
- ▶ Carpenter's triangle
- ▶ Caulk
- ▶ Nail punch

The material you need

- ▶ **1321 moulding**
- ▶ Thickness: 3/4"
- ▶ Width: 1-1/2"
- ▶ Length: 8'
- ▶ Species: Finger-jointed pine, white primed MDF

You can also use the following mouldings: 1550, 1560 and 1565

Building tutorials

Variable Geometry

There's no need for an imposing headboard to highlight your cozy place for cocooning! This geometric wood wall perfectly frames the space, giving it both presence and elegance. The angular, asymmetrical patterns form a true work of art that crowns the bed.

Tips and tricks

- ▶ Cover nail holes, cuts and joints with filler. Let dry and sand to perfection.

Required tools

- ▶ Erasable pencil or masking tape
- ▶ Caulking gun
- ▶ 18 gauge finishing nails
- ▶ Finishing nailer
- ▶ Measuring tape
- ▶ Level
- ▶ Miter saw
- ▶ Grain filler
- ▶ Carpenter's triangle
- ▶ Caulk
- ▶ Nail punch

The material you need

- ▶ **1565 moulding**
- ▶ Thickness: 1-1/16"
- ▶ Width: 1-1/16"
- ▶ Length: 8'
- ▶ Species: Finger-jointed pine, select pine, white primed MDF

You can also use the following mouldings: 1550 and 1560

Building tutorials

Arrow Pattern

Why settle for a bookcase when you can beautifully cover an entire wall with wood slats? Design a custom wall that is both decorative and functional to transform your bookcase into an accent piece. It's easy to adapt to any room in the house.

Tips and tricks

- ▶ Install finishing nails at an angle. This technique allows you to join elements that fit together at a 90-degree angle. Nails driven at a 45-degree angle are less likely to pull out as the wood swells or shrinks over time.

Required tools

- ▶ Erasable pencil or masking tape
- ▶ Caulking gun
- ▶ 18 gauge finishing nails
- ▶ Finishing nailer
- ▶ Measuring tape
- ▶ Level
- ▶ Miter saw
- ▶ Grain filler
- ▶ Carpenter's triangle
- ▶ Caulk
- ▶ Nail punch

The material you need

- ▶ **1565 moulding**
- ▶ Thickness: 1-1/16"
- ▶ Width: 1-1/16"
- ▶ Length: 8'
- ▶ Species: Finger-jointed pine, select pine, white primed MDF

You can also use the following mouldings: 1550 and 1560

Cross Pattern

While a midnight blue accent wall is a definite eye-catcher in any room, a wall lined with the same colour pattern is unmatched, creating a striking effect, especially in a bedroom. This project is easily achievable and will only take you a few hours to complete!

Tips and tricks

- ▶ Use a nail punch to conceal the head of finishing nails and prevent damage to wood surfaces from the hammer. A nail punch is a small cylindrical tool with a pointed or concave end designed to drive a nail below the surface of the wood.

Building tutorials

Learn how to easily recreate this wall!

Chevron Pattern

Rather than opting for a colourful mural or vibrant colours, why not design a geometric wall in your child's room? Painted using a neutral shade, such as olive green, it will last longer and can be adapted to the various changes in decor over the years.

Required tools

- ▶ Erasable pencil or masking tape
- ▶ Caulking gun
- ▶ 18 gauge finishing nails
- ▶ Finishing nailer
- ▶ Measuring tape
- ▶ Level
- ▶ Miter saw
- ▶ Grain filler
- ▶ Carpenter's triangle
- ▶ Caulk
- ▶ Nail punch

The material you need

- ▶ **1321 moulding**
- ▶ Thickness: 3/4"
- ▶ Width: 1-1/2"
- ▶ Length: 8'
- ▶ Species: Finger-jointed pine, white primed MDF

You can also use the following mouldings: 1550, 1560 and 1565

Building tutorials

Learn how to easily recreate this wall!

Tips and tricks

- ▶ Make sure you take good measurements. Don't make any approximations when cutting!

Nested Casings

A chic and tasteful decor, worthy of a 5-star restaurant! With it requiring just a few strokes of the miter saw, hammer and brush... what's not to love! As an added bonus, the rectangular layout of these mouldings, which are longer than they are wide, creates a sense of height.

Required tools

- ▶ Erasable pencil or masking tape
- ▶ Caulking gun
- ▶ 18 gauge finishing nails
- ▶ Finishing nailer
- ▶ Measuring tape
- ▶ Level
- ▶ Miter saw
- ▶ Grain filler
- ▶ Caulk
- ▶ Nail punch

The material you need

- ▶ **1565 moulding**
- ▶ Thickness: 3/4"
- ▶ Width: 1-1/2"
- ▶ Length: 8'
- ▶ Species: Finger-jointed pine, select pine, white primed MDF

You can also use the following mouldings:
1550, 1560 and 1321

Building tutorials

Learn how to easily recreate this wall!

Tips and tricks

- ▶ Even if you use square or rectangular mouldings, don't neglect the 45-degree angles in the corners of the boxes for an impeccable finish.

Required tools

- ▶ Erasable pencil or masking tape
- ▶ Caulking gun
- ▶ 18 gauge finishing nails
- ▶ Finishing nailer
- ▶ Measuring tape
- ▶ Level
- ▶ Miter saw
- ▶ Grain filler
- ▶ Caulk
- ▶ Nail punch

The material you need

- ▶ **1925 moulding**
- ▶ Thickness: 5/8"
- ▶ Width: 1-3/4"
- ▶ Length: 8'
- ▶ Specie: MDF with white primer

You can also use the following moulding:

- 1518** 3/4" x 1-5/8" x 8'
Select pine, white primed MDF

Classic Casings

A kitchen with European accents. These moulding boxes on the wall are reminiscent of the Haussmannian apartments, which are so typically Parisian. Simple to build, they will add that little touch of chic and good taste.

Tips and tricks

- ▶ Timeless and elegant, this idea is inspired by the refinement of Haussmannian apartments. Choose small decorative mouldings or picture rails with rounded and curved shapes. The result is a soft and enveloping atmosphere.

Mid-Century Baguettes

Tone on tone in matte and gloss. This wall, reminiscent of the slatted walls of old-style houses, takes on a completely contemporary look thanks to the 3D effect provided by the mouldings and accentuated by the contrast of the paint finishes.

Required tools

- ▶ Erasable pencil or masking tape
- ▶ Caulking gun
- ▶ 18 gauge finishing nails
- ▶ Finishing nailer
- ▶ Measuring tape
- ▶ Level
- ▶ Miter saw
- ▶ Grain filler
- ▶ Caulk
- ▶ Nail punch

The material you need

- ▶ **1565 moulding**
- ▶ Thickness: 1-1/16"
- ▶ Width: 1-1/16"
- ▶ Length: 8'
- ▶ Species: Finger-jointed pine, select pine, white primed MDF

You can also use the following mouldings:
1550 and 1560

Building tutorials

Learn how to easily recreate this wall!

Tips and tricks

- ▶ Why not try your take on varying the paint finishes that you use? For example, the back wall can be painted with a low-gloss paint, and the accent moldings can be painted with a high gloss finish.

Required tools

- ▶ Erasable pencil or masking tape
- ▶ Caulking gun
- ▶ 18 gauge finishing nails
- ▶ Finishing nailer
- ▶ Measuring tape
- ▶ Level
- ▶ Miter saw
- ▶ Grain filler
- ▶ Caulk
- ▶ Nail punch

The material you need

- ▶ **1321 moulding**
- ▶ Thickness: 3/4"
- ▶ Width: 1-1/2"
- ▶ Length: 8'
- ▶ Species: Finger-jointed pine, white primed MDF

You can also use the following mouldings:
1550, 1560 and 1565

Irregular Baguettes

A relaxing atmosphere in the bedroom. These natural lines repeated on the wall and painted tone on tone provide a soothing effect in perfect harmony with the materials and natural colours of the entire decor.

Tips and tricks

- ▶ Are your walls 9 feet high when moldings are usually available in 8-foot lengths? This pattern is perfect! Use the full length without any joints.

Building tutorials

Learn how to easily recreate this wall!

Required tools

- ▶ Erasable pencil or masking tape
- ▶ Caulking gun
- ▶ 18 gauge finishing nails
- ▶ Finishing nailer
- ▶ Measuring tape
- ▶ Level
- ▶ Miter saw
- ▶ Grain filler
- ▶ Caulk
- ▶ Nail punch

The material you need

- ▶ **Dame 8046 wall panelling**
- ▶ Thickness: 3/4"
- ▶ Width: 6-11/16"
- ▶ Length: 8'
- ▶ Specie: White primed MDF
- ▶ **Window sill moulding 0851**
- ▶ Thickness: 1"
- ▶ Width: 1-1/2"
- ▶ Length: 8'
- ▶ Specie: White primed MDF

You can also use the following moulding:

1324 3/4" x 4-1/2" x 8', Finger-jointed pine, white primed MDF

Tips and tricks

- ▶ Choose a high-quality finishing blade. A blade with more teeth (40, or even better, 80) will give you a cleaner cut.

Learn how to easily recreate this wall!

Rippled Casings

Roundness showcased! Add contrast with right-angled accent boxes made with our curvy Dame wall panelling. They'll add just the right amount of movement to catch the eye and leave you dreaming.

Required tools

- ▶ Erasable pencil or masking tape
- ▶ Caulking gun
- ▶ 18 gauge finishing nails
- ▶ Finishing nailer
- ▶ Measuring tape
- ▶ Level
- ▶ Miter saw
- ▶ Grain filler
- ▶ Caulk
- ▶ Nail punch

The material you need

- ▶ **1565 moulding**
- ▶ Thickness: 1-1/16"
- ▶ Width: 1-1/16"
- ▶ Length: 8'
- ▶ Species: Finger-jointed pine, select pine, white primed MDF

You can also use the following mouldings:
1550 and 1560

Building tutorials

Angular Contrast

A trio of lines. Vertical, horizontal, diagonal... You don't have to choose! This simple addition of lines enhances the chic character of this contemporary-style entrance. Dazzle your guests as soon as they walk in!

Tips and tricks

- ▶ If switches or electrical outlets exist in your design, frame them beforehand and have your design butt against it such as our example.

Required tools

- ▶ Erasable pencil or masking tape
- ▶ Caulking gun
- ▶ 18 gauge finishing nails
- ▶ Finishing nailer
- ▶ Measuring tape
- ▶ Level
- ▶ Miter saw
- ▶ Grain filler
- ▶ Carpenter's triangle
- ▶ Caulking
- ▶ Nail punch

The material you need

- ▶ **1253 moulding**
 - ▶ Thickness: 5/8"
 - ▶ Width: 3"
 - ▶ Length: 8'
 - ▶ Specie: MDF with white primer
-
- ▶ **1321 rectangle moulding**
 - ▶ Thickness: 3/4"
 - ▶ Width: 1-1/2"
 - ▶ Length: 8'
 - ▶ Species: Finger-jointed pine, white primed MDF

You can also use the following mouldings:
1321, 1322, 1565 and 5825

Tips and tricks

- ▶ Although the top shelf is not necessary, it adds a unique finishing detail when the board and batten do not cover the wall floor-to-ceiling.

Building tutorials

Learn how to easily recreate this wall!

Board & Batten

No more monotony! There is a very simple way to refresh a room's decor and break the monotony of plain walls in no time: the board and batten. A few strokes of a saw and a hammer are all it takes to give your room some personality.

Required tools

- ▶ Erasable pencil or masking tape
- ▶ Caulking gun
- ▶ 18 gauge finishing nails
- ▶ Finishing nailer
- ▶ Measuring tape
- ▶ Level
- ▶ Mitre saw
- ▶ Spring loaded-punch
- ▶ Wood filler
- ▶ Caulking

The material you need

- ▶ **1565 moulding**
- ▶ Thickness: 1-1/16"
- ▶ Width: 1-1/16"
- ▶ Length: 8'
- ▶ Species: Finger-jointed pine, select pine, white primed MDF

You can also use the following mouldings: 1550 and 1560

Building tutorials

Plaid Wall

This classic design, with its crossed lines and rich colours, brings a touch of elegance and warmth to your workspace. Installed on one of the main walls, the plaid pattern is sure to stimulate creativity and enhance concentration, creating an atmosphere conducive to realizing your ideas.

Tips and tricks

- ▶ Painting the mouldings before installing them on the walls is an effective way to ensure complete coverage and avoid the hassle of reaching small corners with a brush. Once installed, you can easily touch up the visible areas without worrying about the hard-to-reach parts.

Stéphanie Lévesque

Passing on her passion

Teaching, conferences, books, videos: this general contractor's toolbox is packed. Her goal? To make people more autonomous, knowledgeable and confident in their renovation work.

Mario Lacroix

Renovate with heart

Paying attention to details and doing things with heart: he is the home construction contractor who takes care of your house like his own. This larger-than-life expert treats every renovation project he undertakes with meticulous care.

Catherine Faucher

Creating with happiness

Using her curiosity, audacity and empathy to create designs that captivate: this is a summary of the multiple facets of this designer-entrepreneur who sees inspiration in everything, everywhere, all the time!
